## Reverse Osmosis

### MP750 Plus RO

Multi-Pure's Reverse Osmosis unit combines RO technology with Multi-Pure's solid carbon block filtration.

List Price: \$629.95

## Shower/Bath

### SFFH

Multi-Pure's shower filter attaches to your existing shower arm to aesthetically improve shower water.

Rated Capacity: 25,000 gallons

For optimum performance, it is essential that the filter cartridge (Model No. SFFI) be replaced approximately every 6 to 7 months.

List Price: \$49.95

### SHBATH

Multi-Pure's crystal bath ball and salts go into your bath to aesthetically improve bath water.

List Price: \$59.95

## Replacement Filters

For optimum performance, filters require periodic replacement dependent on use, type, and level of impurities in local water. Replace the filter cartridge when the first of the following occurs: a) annually; b) when the unit's rated capacity is reached; c) the flow rate diminishes; d) the filter becomes saturated with bad tastes and odors. All filter capacities are approximate.
